

I OCCUPATIONAL LEARNING PROGRAMMES

WHAT ARE OCCUPATIONAL LEARNING PROGRAMMES?

Occupational Learning Programmes include Apprenticeships, Learnerships and Skills Programmes. The focus of these programmes is geared towards preparing students for specific skills within a specific working environment related to a specific trade.

Occupational programmes are based on legally binding agreements between an employer, a student and a training provider. It is designed to ensure the quality of the training and to protect the interests of each individual party.

In order to become qualified, students must be assessed against unit standards registered with SAQA.

Occupational Learning Programmes are offered at ORBIT TVET College either as FULL QUALIFICATIONS or as ACCREDITED SKILLS PROGRAMMES.

LEARNERSHIPS that are offered by the College combines theory at the College or Training Centre with relevant practice on-the-job.

SKILLS PROGRAMMES are unit-standard-based programmes that are demand-driven as determined by community needs. Such skills programmes offered by ORBIT TVET College are unit standards extracted from formal full qualifications registered with SAQA for which the College obtained approval from the relevant SETA or Accredited Body to offer the programme.
